

**2022 Season - April 18—October 30**

## Field Trip and Group Visit Guide

A field trip is an exciting way for your group to explore the Zoo! Guests have the opportunity to see over 600 animals representing over 200 species spread out across 40 acres centered within Niabi's 287 acre forest preserve. Learn how the Zoo provides superb care for all of its animals including 27 species that are endangered, vulnerable and threatened with extinction. Enjoy a variety of experiences such as an educational tour, a ride on the endangered species carousel or train, and feed some animals like giraffes, koi fish, domestic animals and guinea pigs at our approved feeding sites.

Groups are welcome during our regular season with discounted rates available Monday through Friday. Reservations must be made online. Groups must book 2 weeks in advance of their requested date. Current rates for your group type and additional details can be found by visiting: <https://www.niabizoo.com/education/field-trips/>

### Where to find us:

**13010 Niabi Zoo Road  
Coal Valley, IL 61240**

Koi food can be purchased any time from our gift shop or admission gates. Unused tickets are valid through the end of the season. No Refunds.

# Make your trip to the Zoo an educational experience!

Learn how Niabi inspires conservation action while helping meet state education standards from pre-K to the college level. **Book your tour online!**

## What you should know about educational tours:

- Tours run for approximately 30 minutes in length.
- Cost is \$5 per student and chaperone (teachers can attend at no cost).
- Groups exceeding 25 participants may be split into more than one group at no extra cost.
- We welcome details about your group's current classroom studies to help your tour experience build on their current knowledge.

## Themed Tours:

### Amazing Adaptations

From prehensile tails to swinging hands and how to survive in desert sands, we'll take a closer look at the special characteristics that help animals survive.

**Featured Animals:** Gibbons, Binturong, Bactrian Camel, Snow Leopard, Giraffes

### African Safari

Explore the great continent of Africa and learn about the unique characteristics of the diverse animals that call it home. **Featured Animals:** Rhino, Giraffe, Zebra, Ostrich, and Colobus Monkeys

### Brilliant Biodiversity

Meaning the variety of life, explore Biodiversity Hall and its wide variety of species to help understand why biodiversity is so important to the survival of life on Earth. **Featured Animals:** Meerkats, African Crested Porcupine, Crocodile Monitor Lizard, Fennec Fox, Reticulated Python, Linne's Two-Toed Sloth

### Cool Cats

Have you ever seen a lion's skull? How sharp is a leopard's claw? How far can a snow leopard leap? In this program your group will learn what it takes to survive at the top of the food chain while viewing these impressive carnivores. **Featured Animals:** Snow Leopard, Bobcats, Amur Leopard, African Leopard, and Pallas Cats

### Homey Habitats

Which animals live where? What about their environment best suits particular animals? Join us as we look at animals from around the world, the different habitats they call home and how everything is connected. **Featured Habitats:** Tropical Rainforest, Desert, Savannah/Grassland, and Temperate Forest

### Radical Reptiles

Discover the ancient world of reptiles and what makes them unique. See our Reptile House and learn about the characteristics that make reptiles so fascinating!

**Featured Animals:** Green Anaconda, Northern Caiman Lizard, Red-footed Tortoise, and Leaf-tailed Gecko

### Spineless Wonders

Are BUGS really animals? What about animals in the ocean without a backbone or spine? While many people typically only think of vertebrates as animals, invertebrates represent 97% of all animal life. Next time you think of an animal, consider that nearly all of the animals on Earth are spineless wonders. **Featured Animals:** Coconut Crab, Curly-haired Tarantula, Ghost Shrimp, Horseshoe Crab, Slipper Lobster, Tailless Whip Scorpion

### Zoo Careers

Find out about a variety of careers with animals, education requirements, experience needed and how to get it as well as the time, commitment, and dedication needed to work in a Zoo. Includes a presentation and a behind the scenes look at areas of the Zoo. **Featured Career Paths:** Zoo Keeper, Conservation Education, Animal Nutritionist, and Veterinary Services

**NOTE:** All tours can be tailored to any age group.

**Don't see what you want?** We can custom design a tour for you! Just give us a call with questions, 309-799-3482 ext 222 or email [education@niabizoo.com](mailto:education@niabizoo.com)
